

GPA AND CORDELE INTERMODAL SERVICES PARTNERSHIP

CONNECTING SOUTHWEST GEORGIA TO THE WORLD

As a critical element of Georgia Ports Authority's Network Georgia and its broader Rapid Routes initiative, Cordele Intermodal Services has created an inland gateway to the Port of Savannah, the second largest port on the East Coast.

OVERNIGHT SERVICE

The Cordele Inland Port, through CIS, offers 5 day a week overnight service with next day availability. This service creates and expands international markets for regional business.

THREE-STATE MARKET

The inland port offers an efficient option to an all-truck dray to the deepwater port of Savannah for CIS' target market — southwest Georgia, southern Alabama, and western Florida.

IMPROVED EFFICIENCY

The CIS/GPA logistics model benefits truckers, allowing them to haul more loads over a shorter distance.

BALANCED TRADE

The balance between import and export container traffic for this market creates benefits for shippers in Albany and Tifton, Ga., Montgomery and Mobile, Ala., and Tallahassee, Fla.

GLOBAL MARKET

Located in a regional center for agriculture — including the production and export of cotton, peanuts and wood products — the Cordele Inland Port will make those commodities more competitive in the global market, while reducing carbon emissions.

ROOM TO EXPAND

CIS is on 40 acres in the Crisp County Industrial Park East, with additional available land nearby, less than one mile from Interstate 75, Georgia Highway 300 and Georgia Highway 280.

PORT PARTNER

In 2013, GPA and CIS signed a Memorandum of Understanding, creating a partnership which provides cost savings, traffic mitigation, and additional operational services benefiting shippers, truckers and steamship lines.
